### SUMMARY

Motivated and detail-oriented, a **3rd-year Computer Engineering** student at **A.P. Shah Institute of Technology, Mumbai University (graduating in 2027, GPA 7.83)**, passionate about transforming ideas into scalable and user-friendly web applications. With strong skills in HTML, CSS, JavaScript, and Python, I'm currently expanding into backend development, data analytics, and AI fundamentals to strengthen my problem-solving and data-driven approach. Recognized for adaptability, analytical thinking, and attention to detail, I aim to contribute to impactful full-stack or data-centric projects through internships while continuously growing as a developer.

### EDUCATION DETAILS

#### Bachelors of Engineering (BE), Computer Engineering

Mumbai, India

University of Mumbai (A.P. Shah Institute of Technology)

2022 – Present | Current CGPA: 7.83

**Relevant Coursework** : Data Structures, Databases, Digital Logic & Computer Architecture, Discrete Structures and Graph Theory, Artificial Intelligence, Machine Learning, Mathematics

#### Higher Secondary Certificate (Class 12)

Umarkhed, Yavatmal, India

Gopikabai Sitaram Gawande Junior College

Year of Completion: 2022 | Percentage: 64.17

#### Central Board of Secondary Education (Class 10)

Umarkhed, Yavatmal, India

GGVM School

Year of Completion: 2020 | Percentage: 75.20

### TECHNICAL SKILLS

**Frontend:** React.js, HTML, CSS, JavaScript

**Backend:** Node.js, Express.js

**Database:** MySQL, MariaDB (Basic), MongoDB

**Programming Languages:** Python

**Tools & Platforms:** Git, GitHub, VS Code, XAMPP, MySQL Workbench

### PROJECTS

#### Car Booking System

> *Html | CSS | PHP | Node.js | Express.js | MongoDB*

- ✦ Provides customers an online platform to search, book, and manage car rentals from anywhere at any time.
- ✦ Enables admins to add, update, and manage car details, availability, and booking records.

- ✦ Can be enhanced with mobile app integration, GPS tracking, or AI-based car suggestions in the future.

## **TEXT2FLOW**

> *React.js / Express.js / Node.js / MongoDB*

- ✦ Developed a full-stack web application using the MERN stack (MongoDB, Express.js, React.js, Node.js) to convert plain text into interactive flowcharts.
- ✦ Automated diagram generation, improving efficiency and simplifying algorithm visualization for students and developers.

## **EXPENSE TRACKER**

> *Html / CSS*

- ✦ Built a responsive web application to help users manage and track personal expenses efficiently.
- ✦ Implemented intuitive UI elements and clear visual hierarchy for effortless navigation and readability.
